Professional Profile

I have 1+ years of experience in **MERN STACK DEVELOPMENT** on developing high scale enterprise applications using React.js, Node.js, Mongo DB, HTML, CSS, Java Script, Tailwind CSS, Bootstrap Visual Studio Code, Postman, GitHub and Netlify etc.

I have been worked into the applications mostly on all phases of development like: Requirement gathering, design analysis, development, testing and deployment of the applications in the Agile methodology.

I am highly motivated and passionate and I have expertise on Mern stack development and Java script development with a strong fundamental in object-oriented programming and a desire to apply my skills and knowledge to contribute to the success of a dynamic software development team. Seeking the position where I can further enhance my development expertise, collaborate with experienced professionals, and actively contribute to the design and development of innovative software solutions.

Core Skills and Abilities

- Hands on experience on MERN STACK DEVELOPMENT.
- Hands on experience on React.js.
- Hands on experience on Java Script, HTML, CSS, Tailwind CSS, Bootstrap.
- Hands on experience on C, C++, JAVA.
- Hand n experience on calling the API from React.js
- Experience on experience on central repository GitHub, Visual studio code, Postman.
- Experience on experience on MySQL and MongoDB
- Experience on experience on node.js

1. **Working as Software Developer in Manasvi Technologies OPC Pvt. Ltd., Bhopal from JAN 2023 to DEC.**

   JAN 2023 –DEC As a
   software developer

**Technical   Skills
Experience.**

- Technologies: React JS, HTML, CSS, JavaScript, tailwind CSS, Node.js, Mongo DB, MySQL, Bootstrap, Netlify, On render.
- Tools   : GitHub, Postman
- Operating System   : Windows
- IDE's   : Visual Studio Code.

Awareness:
- MySQL, Java, C++, C

Project #

Project: Inventory & Billing Management System with Multi-Panel Access

Role: Full Stack Developer
Team Size: 3 Members
Description:
A comprehensive inventory and billing management system developed to streamline business operations across multiple departments. The application includes three separate panels — **Super Admin**, **Admin**, and **Staff/User Panel** — each with distinct roles and access levels. The project supports subscription-based access, inventory control, financial tracking, and multi-party management with real-time reporting capabilities.
The system was designed with scalability, role-based authentication, and security in mind using modern frontend and backend technologies.
Key Modules & Features:
- **Super Admin Panel:**
  - Subscription management with **payment gateway integration**
  - Full system access including plan control and role management
- **Admin Panel:**
  - **Parties Module:** Manage Suppliers, Customers, Vendors, and Manufacturers
  - **Inventory Module:** Category, Subcategory, Brand, Sub-brand, Units, Products
  - **Sales Module:** Estimates, Invoices, Challans, Returns, and POS (Point of Sale)
  - **Purchase Module:** Orders, Purchase Invoices, Returns, and Payouts
  - **Reports Module:** Stock, Sales, Purchase, Daybook, Cashbook, Bankbook
  - **Accounts Module:** Bank-to-Bank Transfers, Cash Deposits/Withdrawals
- **Staff/User Panel:**
  - Access-controlled features derived from Admin Panel
  - Authentication using **JWT tokens**
  - State management and secure routing via **React Context API**

Responsibilities:
- Designed and developed frontend using **React.js**, **Tailwind CSS** implementing reusable component-based architecture.
- Built secure backend using **Node.js** and **Express.js**, **Mongo DB** ensuring RESTful API and axios api creation and integration.
- Implemented authentication & authorization using **JWT tokens** for role-based access.
- Integrated **payment gateway** for managing subscription plans.
- Managed application-wide state with **Context API** for performance and access control.
- Collaborated with team members on development, debugging, and deployment tasks.

Environment:

React.js, Node.js , Express.js Mongo DB, HTML, CSS, Java Script, Tailwind CSS, Visual Studio Code , Postman, GitHub and Netlify ,onrender.

Education

Bachelor of Technology in CSE

 SAM College of Engineering and Technology Bhopal, Madhya Pradesh Rajiv Gandhi Technical University, Bhopal.
Graduated: June 2023

Personal Details:

Gender	: Male
Date of Birth	: 08/03/2002
Nationality	: Indian
Languages Known	: English, Hindi
Alternate Contact number	:+91- 6260470125
Permanent Address	: Makan ward 4, Jhanda panna
	Madhya Pradesh-488001

Place: Bhopal
